With HTML, CSS, and JS, we developed a main hub for information, communication, and resources. Among my responsibilities were organizing, managing, overseeing, selecting, and ensuring excellence. By collaborating and taking initiative, we were able to develop a website that improved communication, resources for professors and students, and online visibility.</div></div> |   |                                      |
